This leadership development is designed to improve your leadership skills and prepare you to tackle complex challenges, drive change, and effectively manage health care organizations. With a strong focus on interactive case studies and small group discussions, the format of this program ensures you will leave ready to maximize your strengths, build strong teams, and position your organization for both short- and long-term success.

During the program, you will explore topics such as financial management, negotiation, and managing change—all in the context of health care. Whether you are leading a company or running a department, this program will help you capitalize on opportunities, build effective teams, and make an impact.
WHO SHOULD PARTICIPATE

This program is well-suited for executives and emerging leaders in both clinical and nonclinical roles from across the health sector.

Ideal participants include:

- Clinical and Administrative Managers
- C-suite and Senior Executives
- Department Chairs/Division Chiefs
- Group Practice Executives
- Health Care Consultants
- Health Systems Executives
- Hospital Executives
- Medical Directors
- Nurse Executives
- Physician Executives

LEARNING OBJECTIVES

This program provides the skills and information you need to lead a health care organization. The knowledge you gain will allow you to think critically about your team, company, and industry, ensuring you can lead your organization to success.

In this program, you will:

Identify leadership styles, strategies and approaches to improve personal navigation of challenges and opportunities

Use interest-based negotiation, multidimensional problem solving, meta-leadership, and other effective techniques to build collaboration and manage conflicts across complex health care systems

Gain a firm grasp of appropriate financial management for your department or organization Understand and leverage your skills to transform and lead groups into productive, high-performing teams

Develop the crucial qualities, actions, and approaches necessary to be a successful leader

Understand design thinking and how it can be used as a process for stimulating innovation in your organization

Improve capacity to manage change in your organization

Develop a leadership toolkit that can be implemented immediately on return to your organization
Louise Weed, MS is an Instructor in the Department of Health Management at the Harvard T.H Chan School of Public Health and is Affiliate Faculty at the Harvard Medical School Center for Primary Care. She has designed and taught several masters-level courses. At the HMS Center for Primary Care, Louise has directed and served as Faculty in the “Advancing Teams Program,” “Leadership Masterclass for Non-Physicians in Primary Care” and the “Medical Director Leadership Institute.”

Louise is also the Faculty Director of the “Advancing Leadership Strategies for Evolving Healthcare Executives” program in the Harvard T.H Chan School of Public Health Executive and Continuing Education Department, and the Faculty Co-Director of “Managing Yourself and Leading Others in Healthcare” course at the Harvard Extension School Center for Professional Development. She teaches in the “Program for Chairs of Clinical Services” and the “Leadership to Advance Health Equity” programs at the Harvard T.H Chan School of Public Health Executive and Continuing Education Department.

Louise serves as the Chair of the Board of Directors for the Massachusetts Service Alliance, and serves on the Board for The Farm School Foundation.

Louise holds a Bachelor’s in Women’s Studies from Tufts University and a Master’s in Public Health in Health Policy and Management from the Harvard T.H Chan School of Public Health. Louise is an alumnus of the Massachusetts Institute of Community Health Leadership (MICHL) and is a current participant in the Equity, Diversity, Inclusion and Belonging Facilitator Program at HSPH. Louise lives in the Boston area with her husband, daughter, and dog.

“Very comprehensive course with a lot of very good useful information. Amazing faculty felt very special rubbing shoulders with some who have worked directly in presidents offices. Although health care systems in USA & Canada are very different the management information and strategies will be very useful. Will definitely recommend this program.”

Naushad Jinah, BBM, MHSC
Director
A1 Logistics
Great course! I enjoyed the team assignments. I learned different processes of how to achieve individual and collective goals. I would highly recommend this program to any mid-level executive/physician who is interested not only on personal leadership skills but also to grow in hospitals/companies as a whole.

Omar Bellorin, MD FACS
Assistant Professor of Surgery
NYPH/Weill Cornell Medical Center

PROGRAM HIGHLIGHTS

Leadership sessions on negotiation, conflict resolution, financial management, team dynamics, and more

Active discussion groups that facilitate the sharing of experiences, address specific challenges, and create workplace solutions

Distinguished Harvard faculty members, complemented by health care industry experts

Networking with fellow health care executives who you can rely on for guidance as you return to your organization
