THE INTERNATIONAL LEADERSHIP DEVELOPMENT PROGRAM FOR PHYSICIANS

May 13–23, 2019 | Boston, MA
This program provides physicians from around the world with focused training in management and leadership, ensuring you are prepared to lead effectively, improve organizational performance, and bring about change in your organization.

As a participant, you will engage with physician leaders from diverse international health care organizations who face similar challenges. This experience fosters an open exchange of ideas and unique insights into how to be an effective physician leader.

With the guidance of expert faculty and fellow participants, you will enhance the leadership skills required to innovate, manage teams, improve financial performance, and drive value across your health care organization.

Registration Criteria

A Doctor of Medicine (MD) or equivalent (DO, MBBS, MBChB, BMed, etc.) is required for participation in this program. Fluency in written and spoken English is also required.

Early registration is encouraged, as space is limited, and programs often fill quickly.

Who Should Participate

This program is designed for physician health care executives and emerging leaders from around the world, including:

- Chief Executive Officers
- Chief Financial Officers
- Chief Medical Officers
- Chief Operating Officers
- Chiefs of Staff
- Clinical Department Directors
- Executive Directors
- Medical Directors
- Medical Superintendents
- Vice Presidents
- Other health care executives whose responsibilities require them to allocate substantial resources, develop policies, and provide organizational leadership and direction for personnel

Past attendees have come from six continents and over 30 different countries, ranging from Denmark to Brazil to Australia to India.

Registration Criteria

A Doctor of Medicine (MD) or equivalent (DO, MBBS, MBChB, BMed, etc.) is required for participation in this program. Fluency in written and spoken English is also required.

Early registration is encouraged, as space is limited, and programs often fill quickly.

“...The great strength of this program is its ability to gather physician leaders from all over the world with differences in health care systems, from developed and developing countries, from different cultures and beliefs, put all of them under one roof and to learn, listen, discuss, and laugh with the lecturers and with each other.”

— Justin Elfred Lan Bello Paber, MD
Department of Otorhinolaryngology—Head and Neck Surgery
Zamboanga City Medical Center, The Philippines
Learning Objectives

- Apply broad strategic knowledge of the health care system in which you work to plan and implement changes in health care delivery at the organizational and unit level
- Articulate your highest priorities as a leader in a health care organization
- Demonstrate insight into, and appreciation of, the external challenges and changes occurring in health care systems worldwide as well as options for effective responses
- Employ concepts and frameworks in key disciplines, including patient safety, quality improvement, innovation, financial management and control, and performance improvement
- Apply improvement methods when diagnosing and solving problems
- Employ best practices on leading and managing health care organizations
- Deploy change management skills

Site visits: You will visit a high-performing health care delivery organization that serves a diverse population in the Greater Boston area. Through this visit, you will meet with successful innovators to experience how highly effective leadership can improve care, health, and value.

Personalized change projects: Personalized change projects are an integral part of this program. You will prepare and refine a project plan that will align with the mission, vision, and priorities of your organization. Faculty will collaborate with you to refine the project goals, measures, and strategies before the end of the program, allowing you to return to your organization with an actionable plan.

“This has been a life experience I will never forget.”

— Riccardo Cocchieri, MD
Chief Cardiothoracic Surgery
OLVG Amsterdam, The Netherlands
Laurie Samuels Pascal, MBA, MPH is a Lecturer in the Department of Health Policy and Management at the Harvard T.H. Chan School of Public Health. She also consults to health care delivery organizations and universities around the world and designs forward-looking executive education programs for health system leaders in the areas of organizational effectiveness creating sustainable change and leadership development. Previously, Laurie was the VP of Business Development & Planning and the VP of Radiology at Beth Israel Deaconess Medical Center. She formerly held executive positions in health insurance, financial services, and higher education. Laurie serves on several health care and higher education boards of trustees, in addition to the Harvard Pilgrim Health Care Ethics Advisory Group.

Cindy Hupke, BSN, MBA is a former Director at the Institute for Healthcare Improvement (IHI) and was a content lead for IHI’s Triple Aim for Populations. Her work has focused on leading large, strategic population health initiatives to improve population outcomes at scale, with a particular emphasis on reducing disparities and inequities. These initiatives included the US Department of Health and Human Services Health Resources and Services Administration’s Health Disparities Collaboratives and the Indian Health Service’s Improving Patient Care Collaboratives, reaching more than 800 health centers and clinics across the US.
